OS

- Linux • Windows

ACHIEVEMENTS

CERTIFICATION

- Certified in Industrial 4.0 (Fundamental Programming)
- Communications Skill (TCS)

HOBBIES

- Football
- Chess

LANGUAGES

- ENGLISH
- TAMIL

EXPERIENCE

Aaraj E-Commerce | Web Developer | intern

July 2025 – Oct 2025 | Thoothukudi, TN

- Built and maintained 4+ webpages using PHP and Laravel, improving user engagement by 25% through enhanced UI/UX.
- Developed and optimized MySQL queries, reducing page load times by 30% across key e-commerce modules.
- Collaborated in a 4 member dev team using Git for version control, streamlining deployment and reducing merge conflicts by 40%.
- Debugged and resolved 15+ backend issues in the LAMP stack, improving system stability and reducing customer complaints by 20%.

Inspire Tech | Frontend Developer | Trainee

May 2024 - Aug 2024 | Thoothukudi, TN

- Built 5+ responsive web pages using HTML, CSS, JavaScript, and React.js.
- Improved page responsiveness by 30% through optimized CSS and layout adjustments.
- Collaborated with a team of trainees to implement UI components that boosted user engagement.

PROJECTS

Course Management System (Full-Stack Project)

Technologies: Laravel, PHP, MySQL, Tailwind CSS, JavaScript

- Designed and implemented a role-based system where Admins manage 10+ teachers and 100+ students, ensuring smooth allocation of courses.
- Built a Student Dashboard that automatically displays teacher-course assignments, improving user clarity by 40%.
- Enabled teachers to upload and share 50+ study materials (PDFs & images) with students, enhancing accessibility.
- Developed an exam and grading feature, allowing teachers to assign marks and track student performance in real-time.
- Streamlined communication between teachers and students, resulting in a 30% reduction in manual course management tasks.

Fish Shop-E-Commerce Project

Technologies: React Js, Php, Laravel, CSS, MySQL, Postman API

- Developed a full-stack e-commerce platform with product listings, cart, and checkout, handling 100+ products efficiently.
- Integrated secure order management APIs using Laravel & Postman, reducing checkout errors by 35%.
- Built a responsive UI in React.js & CSS, improving mobile accessibility and achieving 95% cross-device compatibility.
